

AI-Powered Recoveries for Debt Collection Agencies

Enhance performance and boost efficiencies with collections technology

Foster Better Recoveries

Streamline operations, reduce costs, and increase strategic impact. Achieve more with less effort.

Succeed with Compliant Collections

Prioritise debtor-centricity, ensure compliance, build trust, and increase transparency in debt collection practices.

Boost Your Process Efficiency

Improve results from high-volume, low-value claims with advanced automation. Scale operations effectively.

PACTUM COLLECTIONS

One team. Any place. Any time.

The receeve platform empowered Pactum Collections, a rapidly expanding operation spanning across 15+ countries, to optimise recovery rates through AI-powered strategies and communications, agile workflows, and sustainable scaling. The results were a **15.1%** increase in cash collected, a **68%** reduction in outbound calls, and a **9.1%** rise in 7-DPD payments.

A Smarter Approach to Debt Recovery

Proactive Risk Management

Leverage your interactions with advanced strategy optimisation and collections analytics. Prevent defaults and optimise recovery efforts through data-driven insights.

Intelligent by Design

Make informed decisions and yield increased recovery rates through intelligent automation.

Seamless Debt Solutions: Scale & Connect

Connected Collections

Achieve seamless integration across the debt management ecosystem. Effortlessly connect with credit bureaus, legal service providers, and payment gateways for a comprehensive solution.

Scale Your Performance

Deliver exceptional debtor experiences with intelligent automation. Increase cooperation and improve recovery rates.
